**EMP 7675 – Space-Time Holography  
(3 Credits)**

## Overview of Course

Space-Time holography is a bridge between classical wisdom and modern science. This course links the civilization history of human-beings with modern science. The course set the relationship between humanities and nature philosophies with modern science. This course will extend the understanding of holography with nature laws and space-time energy. Deeply understanding holography by all these links, the course let students understand the relationship between phenomena and essences. The layers of nature art will be explored – heaven, earth, human-beings and all known and unknown existing.

## Course Topics:

- Introduction on space, time and space-time holography.
- Modern science, nature laws and ancient wisdom Huangdi Neijing 《黄帝内经》.
- Modern science, nature laws and ancient wisdom The Art of War 《孙子兵法》 《孙臆兵法》.
- Philosophy, holography, nature laws and Daodejing 《道德经》.
- Modern science, holography systems with I Change 《易经》.
- Holography systems with ancient concept Taiji(太极), mystery totems of Hetu (河图) and Lushu (洛书).
- Understanding meridians, human energy systems and holography. Discovering modern science and holographic systems- Wave, fields, fracture and imaginary.
- Self-cognition – exploring the resources of energy and holography applications.
- Understanding energy medicine and holistic health with space-time holography.

## Learning Objectives:

- Students will deeply understand holography and nature laws.
- Student will understand the link between modern science and ancient wisdoms.
- Students will understand relationship between wave and space-time holography.
- Students will explore energy, meridians, holography and space-time energy.
- Students will extend their views of energy medicine and holography.

## Audience:

This course is designed for individuals who have interests in self cognition and development through the ancient science and philosophy.

## Course Description

Space-Time Holography is specially designed for the students who interest in ancient Chinese wisdoms. This course will help students understand connections between classical wisdoms and modern science. Through Huangdi Neijing 《黄帝内经》, students will deeply understand holography from the relationship between heaven and human-beings. From diagnosis and meridians, students will understand the space-time holography. From The Art of War 《孙子兵法》 《孙臆兵法》, students will understand nature laws and earth energy. From Daodejing 《道德经》 students will understand the relationship between space-time holography and philosophy of Dao(道). From I Change 《易经》 students will understand the basis: holographic structures and its relationship. Meridian and human energy system will also help students to understand holography. Modern science and concept, such as wave, frequency, fields, fracture and image, will fully support space-time holography theory. Space-Time Holography is the powerful tool for energy medicine and holistic health application.

## Faculty-Student Communication

The students could use telephone, email and skype to communicate faculty during their learning period. The professor may be able to set up one-on-one discussions with the students using Skype. Students should check email frequently for professor and EMU messages.

## Course Delivery Style

Distance Education - Coursework is completed at a location determined by the student utilizing a computer that has the ability to play audio and video clips, with Microsoft Office Word, Excel, PowerPoint, Adobe Reader, along with a current web browser, internet connection and email address.

Contact and communication with distance students is typically conducted by telephone, Internet, Skype, text chat, and email. Students are also encouraged to contact the University by facsimiles, and postal mail, and by personal visit to the University.

## **All lessons, coursework and papers must be copied to lessons@energymedicineuniversity.org**

*from both the student and professor.*

The course assignments, readings and explorations will be delivered through email and discussion between each student and professor.

## **Course Assignments and Completion Timetable**

The semester has 20 weeks. Twelve assignments need to be accomplished with the following schedule. For assignments and discussion sessions, students could use both English or Chinese language. The final paper needs to be accomplished in English.

### **Assignment #1 (Week 1)**

Understand space, time and holography.

### **Assignment #2 (Week 2-3)**

Study the relationship between Huangdi Neijing 《黄帝内经》 and modern science.

### **Assignment #3 (Week 4)**

Understand earth energy and nature laws.

### **Assignment #4 (Week 5)**

Understand Dao, philosophy of holography.

### **Assignment #5 (Week 6-7)**

Learn the concept of nature laws and I Change 《易经》.

### **Assignment #6 (Week 8)**

Summarize the links among Taiji(太极), Hetu(河图) and Lushu(洛书).

### **Assignment #7(Week 9-10)**

Understanding meridian, human energy system and space-time holography.

### **Assignment #8 (Week11)**

Discover wave, frequency, fields and nature holographic systems.

### **Assignment #9 (Week12)**

Self-cognition – explore your own space-time energy structures

### **Assignment #10 (Week13-14)**

Summary space-time holography and application in daily life.

### **Assignment #11 (Week15-16)**

Deeply understanding meridian, human energy system and space-time holography

### **Assignment #12 (Week17-20)**

Summarize a paper with space-time holography that needs to cover the following contents:

- Modern science and holographic systems
- Universe holography, holistic health and energy medicine,
- Space-Time holography
- Wave frequency and fields

- Modern science
- Holography and nature laws
- holistic health and energy medicine.

### **Course Evaluation**

The course grade will be based upon the quality of the assigned worksheets, practiced forms, figures and final paper, the comments and criticisms of understanding, exploration, application and session discussion.

### **Course Grading Determinants**

Grades are based on the assignments and practicing.

Using this technique, there will be 100 points assigned to the course. Final semester grades will be calculated as follows:

92-100 points = A range

86-91 points = B range

80-85 points = C range

70-80 points = D range

Under 70 points = F

### **Suggested Reading**

Traditional Chinese Medicine with The Art of War – BaiTuJing 《中医兵法百图经》 and other learning materials will be delivered by Dr. Liqi Tian.
